### **About BRICS-**

BRICS is a multilateral forum consisting of five major emerging economies of the world, namely Brazil, Russia, India, China and South Africa.

### **Structure and Mandate-**

- The group at each summit elects one of the heads of state of the component countries to serve as President Pro Tempore of the BRICS.
- Based on World Bank data (2019), BRICS countries together represent 41% of the world's population, around 25% of global GDP and around 20% of world trade.
- Bilateral relations among BRICS states are conducted mainly based on non-interference, equality, and mutual benefit.
- The existence of the BRICS grouping does not signify a formal or informal alliance.
- Currently, there are two components that make up the financial architecture of BRICS, namely, the New Development Bank (NDB), or sometimes referred to as the BRICS Development Bank, and the Contingent Reserve Arrangement (CRA).
- Both of these components were signed into a treaty in 2014 and became active in 2015.
