Effective Use of Technology for Welfare Schemes – Case of MGNREGS

Source: *PIB, Economic Survey 2018-19*

- Survey says that **efficacy of MGNREGS increased with the use of technology in streamlining it.**
- Significant **reduction in delays in the payment of wages with adoption of NeFMS and DBT** in MGNREGS.
- Demand and supply of work under MGNREGS increased, especially in distressed districts.
- Vulnerable sections of the society viz. **women, SC and ST workforce increased under MGNREGS** during economic distress
