

Golden Jubilee of PIN Code

October 13, 2022

In news– The Minister of State for Communications has recently released Commemorative Postage Stamp on the occasion of Golden Jubilee of PIN Code, in Gandhinagar, Gujarat.

What is a PIN code?

- **PIN code or a Postal Index Number** in India is a **six-digit numeric code in the Indian Postal system.**
- It was **introduced on 15 August 1972 by the then Additional Secretary in the Ministry of Communications, Shriram Bhikaji.**
- The new system was felt important to simplify the process of sorting and delivering the mails manually.
- This is because different languages and similar names and addresses created a lot of confusion.
- Thus, there should be a standard procedure that helps in simplifying the process.
- This way, PIN Codes were introduced to identify states, districts, and cities.
- The **first 8 are geographical regions and the digit 9 is reserved for the Army Postal Service.**
- The first digit indicates one of the regions. The second digit indicates the sub region or one of the postal circles (States). The third digit indicates a sorting / revenue district. The last 3 digits refer to the delivery Post Office.

The first digit of PIN indicates as below:

First Digit	Region	States Covered
1	Northern	Delhi, Haryana, Punjab, Himachal Pradesh and Jammu & Kashmir
2	Northern	Uttar Pradesh and Uttaranchal
