

Vision of New India by 2030

March 5, 2021

Background : In the Union Budget of India 2019 the Finance Minister laid out the Vision 2030 while highlighting India's transformation in the last five years. India is poised to become a \$ 5 tn economy by 2025 and aspires to become a \$ 10 tn economy by 2030.

Ten most important dimensions

The Government had unveiled its vision for the next decade(in 2019), listing thereby ten most important dimensions in 2030. With this comprehensive ten-dimensional Vision, Government will create an India where poverty, malnutrition, littering and illiteracy would be a matter of the past. India would be a modern, technology driven, high growth, equitable and transparent society

The dimensions of Vision-2030 outlined by government are as follows

- To create physical and social infrastructure for the ten trillion dollar economy and to provide ease of living.
- Digital India led by the youths with innumerable start-ups and millions of jobs.
- To make India pollution free by focusing on Electrical Vehicles and renewables.
- Rural industrialisation using modern technologies to generate massive employment.
- Clean rivers, with safe drinking water to all Indians and efficient use of water in irrigation using micro-irrigation techniques.
- Besides scaling up Sagarmala, India's coastline and ocean waters will power development
- Through our space programme – Gaganyaan, India becoming

the launch-pad of satellites for the World

- Self sufficiency in food production and producing food in the most organic way.
- A healthy India by 2030 and a distress free health care and wellness system for all. Ayushman Bharat and women participation would be an important component in it.
- Employees working with the elected Government, transforming India into Minimum Government Maximum Governance nation.
