

Jan Soochna Portal

May 9, 2020

What is the Jan Soochna Portal?

- It is a single window portal, **launched by the Rajasthan government**, hosting information and databases on **32 different schemes of 13 departments** such as the employment guarantee programme, sanitation, the public distribution system
- It aims to offer wider and easier access to the State's increasingly digitised databases, thus increasing transparency and accountability in governance. It has **82 different information request options** and information is given out in Hindi and English.
- It not only explains the schemes but also provides real-time information on beneficiaries, authorities in charge, progress. **Section 4(2) of the RTI Act**, specifically enjoins upon public authorities to publish information proactively so that the people need not file applications under the law to obtain information.
