

Multifunctional Electronic Materials & Processing (MEMP 2021)

March 10, 2021

In News: On the occasion of 30th foundation day of Centre for Materials for Electronics Technology (C-MET), the Union Minister of State for Education, Communications, Electronics & Information Technology, Government of India, inaugurated today the International Conference on Multifunctional Electronic Materials & Processing (MEMP 2021).

About MEMP- 2021

- Centre for Materials for Electronics Technology (C-MET), Pune is organizing an International Conference on Multifunctional Electronic Materials & Processing (MEMP 2021) at Pune, India during 8-10 March 2021.
- MEMP-2021 provide an opportunity to scientists, researchers, academicians and young students to interact with eminent scientists/technologists working in the field of multifunctional electronic materials for various applications & their processing for making devices.
- Materials required for energy storage, energy generation, Nanostructured materials, Quantum dots, Sensors, Neutrino Energy Conversion /storage. Flexible devices, Photonic devices and processing techniques like Additive Manufacturing (3D printing) will be discussed here.
- MEMP 2021 will serve as a common platform for discussing the new ideas developments/ breakthroughs and future prospects pertaining to multifunctional electronic materials with some of the leading scientists/technologists as well as to be acquainted with their

experience and knowledge.
