

PRAGATI (Pro Active Governance and Timely Implementation)

May 8, 2020

What is PRAGATI platform?

- It is a multi-purpose and multi-modal platform that is aimed at addressing common man's grievances and simultaneously monitoring and reviewing important programmes and projects of the Government of India as well as projects flagged by State Governments.
- Prime Minister will hold a **monthly programme** where he will interact with the Government of India Secretaries, and Chief Secretaries through Video-conferencing enabled by data and geo-informatics visuals

Key Features

- The PRAGATI platform uniquely bundles three latest technologies: **Digital data management, video-conferencing and geo-spatial technology.**
- It is a three-tier system (**PMO, Union Government Secretaries, and Chief Secretaries of the States**). It offers a unique combination in the direction of cooperative federalism.
- Issues to be flagged before the PM are picked up from the available database regarding Public Grievances, on-going Programmes and pending Projects.
- The system will ride on, strengthen and re-engineer the data bases of the CPGRAMS for grievances, Project Monitoring Group (PMG) and the Ministry of Statistics and Programme Implementation. PRAGATI provides an interface and platform for all these three aspects.'
