

PRAGATI

June 23, 2019

It is aimed at starting a culture of **Pro-Active Governance and Timely Implementation**.

It is also a robust system for bringing **e-transparency and e-accountability** with real-time presence and exchange among the key stakeholders.

The platform was launched in **March 2015**.

It is a **multi-purpose and multi-modal platform** that is aimed at addressing common man's grievances, and simultaneously monitoring and reviewing important programmes and projects of the Government of India as well as projects flagged by State Governments.

The PRAGATI platform uniquely bundles **three latest technologies**:

- Digital data management
- Video-conferencing
- Geo-spatial technology

It also offers a unique combination in the direction of **cooperative federalism** since it brings on one stage the Secretaries of Government of India and the Chief Secretaries of the States.

With this, the Prime Minister is able to discuss the issues with the concerned Central and State officials with full information and latest visuals of the ground level situation.
