Sustainable Alternative Towards Affordable Transportation (SATAT)

SATAT, an initiative aimed at providing a Sustainable Alternative towards Affordable Transportation as a developmental effort that would benefit both vehicle-users as well as farmers and entrepreneurs.

This initiative holds great promise **for efficient municipal solid waste management** and in tackling the problem of polluted urban air due to farm stubble-burning and carbon emissions.

Use of CBG will also **help bring down dependency on crude oil imports** and in realising the Prime Minister's vision of enhancing farmers' income, rural employment and entrepreneurship.
