

Sophisticated Analytical & Technical Help Institutes (SATHI)

April 26, 2020

Context: Department of Science & Technology has launched a unique scheme called Sophisticated Analytical & Technical Help Institutes (SATHI).

- The SATHI centres are expected to house major **analytical instruments to provide common services of high-end analytical testing, thus avoiding duplication and reduced dependency on foreign sources.**
- These centres would be operated with a transparent, open access policy.
- DST has already set up three such centres in the country, one each at IIT Kharagpur, IIT Delhi and BHU at a total cost of Rs 375 Cores.
- It is planned to set up five SATHI Centres every year for the next four years.
- SATHI will address the problems of accessibility, maintenance, redundancy and duplication of expensive equipment in our institutions, while reaching out to the less endowed organizations in need, e.g., industry, MSMEs, startups and State Universities.
- This will also foster a strong culture of collaboration between institutions and across disciplines to take advantage of developments, innovations and expertise in diverse areas.
