February 20, 2023

In news– The world's first international summit on the responsible use of artificial intelligence in the military commenced on February 15 2023 in The Netherlands.

The REAIM 2023-

- It brings together governments, corporations, academia, startups, and civil societies to raise awareness, discuss issues, and possibly, agree on common principles in deploying and using AI in armed conflicts.
- The two-day summit explored advances in AI and machine learning models, understand their limitations, and the possibilities of building a human-machine team.
- It was organised by the Netherlands government..
- The event was co-hosted by the Republic of Korea and took place at the World Forum in The Hague, the international city of peace and justice.
- It's the first global attempt to prevent the proliferation of lethal autonomous weapons (LAWS) and insert ethics, responsibility, accountability and the moral factor into a rapidly developing weaponisation technology that has potential for cataclysmic damage.
