February 20, 2023

**In news**– The world's first international summit on the responsible use of artificial intelligence in the military commenced on February 15 2023 in The Netherlands.

## **The REAIM 2023-**

- It brings together governments, corporations, academia, startups, and civil societies to raise awareness, discuss issues, and possibly, agree on common principles in deploying and using AI in armed conflicts.
- The two-day summit explored advances in AI and machine learning models, understand their limitations, and the possibilities of building a human-machine team.
- It was organised by the Netherlands government..
- The event was co-hosted by the Republic of Korea and took place at the World Forum in The Hague, the international city of peace and justice.
- It's the first global attempt to prevent the proliferation of lethal autonomous weapons (LAWS) and insert ethics, responsibility, accountability and the moral factor into a rapidly developing weaponisation technology that has potential for cataclysmic damage.
