

Tribal Health Care Research Program (THCRP)

February 6, 2021

About the Tribal Health Care Research Program (THCRP)

The Tribal Health Care Research Program (THCRP) was started by the Central Council for Research in Ayurvedic Sciences (CCRAS), an autonomous organization under Central Government, in 1982. The project involves studies of the living conditions of tribal people including health related demography; documentation of folk claims and Local Health Traditions (LHT); use of common medicinal plants in the area; propagation of knowledge about hygiene and prevention of diseases; and extending medical aid at door steps.

The objectives of the project are as under:

- To Study the living conditions of tribal people
- To Collect information related to health statistics
- To study dietetic habits, nature and frequency of prevalent diseases, use of common medicinal plants in the area
- To provide medical aid at the door steps of tribals.
- To propagate knowledge about Ayurvedic concept of Pathyapathya including hygiene habits, dietary practice.
- To prevent diseases by adopting healthy way of living & clean environment (Swachhata)
- To provide health care facility to tribal population
- To promote healthy living among tribes
- To collect and document the folk claims and local health traditions to enable research etc.

The project was executed in 14 states through 15 research institutes under the Council.

Central Council for Research in Ayurvedic Sciences (CCRAS)

The Central Council for Research in Ayurvedic Sciences (CCRAS), an autonomous body under Ministry of AYUSH, Govt. of India is an apex body in India for undertaking, coordinating, formulating, developing and promoting research on scientific lines in Ayurvedic Sciences. The activities are carried out through its 30 Institutes/Centres/Units located all over India and also through collaborative studies with various Universities, Hospitals and Institutes. The research activities of the Council include Medicinal Plant Research (Medico-Ethno Botanical Survey, Pharmacognosy and Tissue Culture), Drug Standardization, Pharmacological Research, Clinical Research, Literary Research & Documentation and Tribal Health Care Research Programme.

Objectives of the Council

The objectives for which the Central Council is established are:

- The formulation of aims and patterns of research on scientific lines in Ayurvedic Sciences.
- To undertake any research or other programmes in Ayurvedic Sciences.
- The prosecution of and assistance in research, the propagation of knowledge and experimental measures generally in connection with the causation, mode of spread and prevention of diseases.
- To initiate, aid, develop and co-ordinate scientific research in different aspects, fundamental and applied of Ayurvedic Sciences and to promote and assist institutions of research for the study of diseases, their prevention, causation and remedy.
- To finance enquiries and researches for the furtherance of objects of the Central Council.
- To exchange information with other Institutions, Associations and Societies interested in the objects similar to those of the Central Council and specially in observation and study of diseases in East and in India

in particular.

- To prepare, print, publish and exhibit any papers, posters, pamphlets, periodicals and books for furtherance of the objects of the Central Council and contribute to such literature.
