## What is ODOP?

- One District, One Product is an initiative by the government which aims to make regional products more accessible, while providing capital to those who produce them.
- Under the scheme, the State identifies the chief product for a district, and then offers support for its processing, storage and marketing.
- These products can be perishable agri produce, cerealbased products or food products like mango, potato, meat

and fisheries.

■ The scheme also supports traditional and innovative products including waste-to-wealth products, such as honey and herbal edible products.
